Steering B Committee Meeting

Date: 11/05/2018

Time: 5:30pm

Location: White County Courthouse

The White County Steering Committee B met on Monday, November 5th, 2018, at the White County Courthouse. Members present were Andy Haston, TK Austin, Robert McCormick, Dakota White, Dale Bennett, Roger Mason and Stanley Neal. Also present were Finance Director Chad Marcum and Landfill Director Gaylon Barlow.

There being a quorum present, the meeting was called to order by Commissioner Stanley Neal and prayer was led by Commissioner Roger Mason.

Commissioner Neal asked for approval of the minutes from the previous meeting. Commissioner White made a motion and Commissioner Mason seconded the motion to approve the minutes as presented. The motion was approved.

Mt Gilead VFD Checking

Finance Director Chad Marcum updated the committee on Mt. Gilead VFD. In January 2017, the membership resigned leaving a vacant department with business still needing to be conducted. For example, the electric and water bills still needed to be paid. For that reason, in May 2017, Steering Committee B delegated financial authority to County Executive Robinson and Finance Director Chad Marcum. Since that time, Mt. Gilead VFD has gained new membership and things appear to be going well. With that in mind, the County would like to turn the financial authority back over to the department so they can sign their checks just like every other department in the County. Director Marcum presented the committee with a letter for each of them to sign for Citizens Bank removing Denny Robinson and Chad Marcum from the account and conveying signatory control back over to the membership of the Mt. Gilead Vol. Fire Dept. It would be up to the Fire Dept. Membership to decide who they want on the signature card. Commissioner White made a motion and Commissioner Austin seconded the motion to turn financial responsibility back over to Mt. Gilead VFD. On a voice call vote, all members voted in favor. Motion approved.

Chairman Neal asked the committee for any old business

Finance Director Chad Marcum gave an update from the Budget Committee regarding the ankle bracelet program that was sent to Budget from Steering Committee B. The Budget Committee determined that there would be overhead cost to operate the jail with or without the ankle bracelet program. In addition, the Sheriff's Department has not ask for any monetary increases to their budget, therefore there was no action for the Budget Committee to take. Steering Committee B discussed liability issues, selection process for the program, and a pilot program. After further discussion, the committee determined this decision needed to be made by the Sheriff's Department in conjunction with the Judge and no action was needed from Steering Committee B at this time.

White County, Tennessee

Chairman Neal asked the committee for any new business

Chairman Neal brought to the attention of the committee an EMS personnel issue. EMS has had issues with employees not turning in their run reports and by not turning in their run reports, the County is not getting paid. One employee has already been dismissed and now there are others who are not turning in their reports. Based on Mr. Neal's understanding, there is an EMS employee that is approximately 200 run reports behind. When asked how much money the County was losing, Chairman Neal explained each call would range from \$400.00 - \$800.00 based on the call. So using an average of \$500.00 per call time's 200 runs that would be approximately \$100,000.00. Chairman Neal went on to say that some of the money would not be collectable as there is a time limit for filing insurance claims. Commissioner White asked if the County had any policies or procedures in place to address this issue. Chairman Neal explained that he didn't think it would be up to the County to do that, it would be up to the Director of EMS. Commissioner Mason asked where the "checks and balances" were for this type of issue. Chairman Neal stated that he believed that EMS had their own policies and procedures. Mr. Neal went on to say that County Executive Robinson has spoken to Director Kerr. Mr. Kerr admitted there was an issue and he would address it. Chairman Neal just wanted the committee to be aware of the situation because it could add up to a lot of dollars and could affect that department.

Commissioner Roger Mason inquired of the work being done beside the Quebeck Convenience Center; is that work being done by the County or by the Quebeck Church. The work is being done by the Church for an extended parking area and has made it safer to pull out from the convenience center onto McMinnville Hwy.

The next meeting will be December 3rd, 2018 at 5:30pm.

There being no further business, Commissioner Mason made a motion and Commissioner McCormick seconded the motion to adjourn. The motion was approved.

White County, Tennessee

Solid Waste Committee Meeting

Date: 11/05/2018

Time: Immediately Following Steering Committee B

Location: White County Courthouse

The White County Solid Waste Committee met on Monday, November 5th, 2018 immediately following Steering Committee B at the White County Courthouse. Members present were Andy Haston, TK Austin, Robert McCormick, Dakota White, Dale Bennett, Roger Mason and Stanley Neal. Also present were Dillard Quick, Bobby McCulley, Cain Rogers, Landfill Director Gaylen Barlow, Finance Director Chad Marcum, County Executive Denny Robinson and Sparta Expositor's Rima Austin.

There being a quorum present, the meeting was called to order by Chairman Dale Bennett. Mr. Bennett asked for approval of the minutes from the previous meeting. Commissioner Austin made a motion and Commissioner Mason seconded the motion to approve the minutes as presented.

Update on Meeting with Caraustar

County Executive Robinson updated the committee regarding his meeting with Seth Martin from Caraustar Recycling. Mr. Martin indicated that their company was not interested in taking plastics at this time. He further stated that there was no market for plastics until crude oil prices go back up. Mr. Martin did indicate that they are interested in our cardboard and paper recycling. They would be interested in giving the county a cardboard/paper baler to bale our cardboard and paper for recycling. The County would be responsible for constructing a building for storage of the bales as well as to insure the bales are not in direct rain. Once we had enough for a tractor trailer load, Caraustar would come and pick up the bales. The committee discussed the pros and cons of what it would cost the County to construct the concrete pad and building versus what we would receive from the recycling. Commissioner TK Austin also noted that there would be additional cost of purchasing a forklift, labor for someone to operate a forklift and bale the paper and cardboard.

Directors Report and Engineer's Report

Director Barlow stated that both compactors are up and running and doing well and there are no major problems to report at the landfill.

County Executive Robinson updated the committee on the leachate collection system. TDEC has determined that they would like for the County to repair the original leachate collection system as oppose to constructing an alternate leachate collection system. The landfill department in conjunction with the County Executive have exhausted all measures to cause our current leachate collection system to work as it was designed too. The County Executive discussed the measures that have been taken including jetting the lines, running cameras thru the lines and physically digging down in several areas of the cell. Mr. Robinson stated that they have dug at least 30 feet deep into the cell until the ground begin to shift and it became obviously unstable and unsafe to continue.

White County, Tennessee

According to Mr. Robinson, the next step would be to bench our way down. The benching area will be twice as big of a working area then what would normally be needed and this project will need to be contracted out. Commissioner Austin inquired about directional boring. Director Barlow explained to the committee that one of the major issues they have run into is the numerous layers of dirt that have been found. There are sections of the cell that have been found with at least 20 feet of dirt and no trash causing the leachate not to drain. The dirt should be minimal. TDEC would like for us to dig down into the main part of the cell, at least 50 to 75 feet down, locate the cell liner and add rock to help the cell drain. Mr. Barlow cautioned that whoever we contracted with would need the ability to see what they are drilling through to protect the cell liner. After further discussion on how we needed to proceed, County Executive Robinson stated directional boring was worth looking into.

Chairman Bennett asked the committee for any old business

There was none.

Chairman Bennett asked the committee for any new business

Director Barlow discussed with the committee the need to expand Hwy. 42 convenience center. Mr. Barlow states that his trucks are having a hard time picking up and delivering cans due to the lack of space, especially when there is traffic at the center. Mr. Robinson states he will research this more before the next meeting.

Next meeting will be December 3rd, 2018 following Steering Committee B.

There being no further business, Commissioner Mason made a motion and Commissioner Haston seconded the motion to adjourn. The motion was approved.

White County, Tennessee

White County, Tennessee

The committee discussed issuing special event permit(s). According to applicable statutes, applicants applying for special event permits will have to take similar steps that applicants who apply for on and off premises or off premises permits take, for example: a \$250.00 non-refundable application fee as governed by TCA Code 57-5-104 is required.

The beer board does have the ability to authorize a special event permit for up to 30 days however permits cannot be issued for anyone intending to sell beer on public property.

Mr. Robinson further reported that the White County Commission has authorized a contribution of one million dollars to acquire said property. In order to proceed, the IDB would need to approve resolutions to:
